

COACHING CONVENTION 2025

Syllabus of minimum content: UEFA Futsal A diploma

Introduction

“**Quality coaching** is much more than teaching a sport. Coaches coach the person rather than the sport and so contribute to their participants’ development socially and emotionally, as well as physically and technically. Quality coaching is therefore more athlete-centred and athlete-driven, more focused on values and respect. Coaches play an important role in promoting enjoyable sports participation, helping people achieve their potential and enhancing individual and team performance.”

[Building your Coach Developer Workforce](#), International Council for Coaching Excellence (ICCE), 2024

UEFA adopts a competence-based approach to its diploma courses and their syllabuses of minimum content. **Quality coach education** is student-centred and output-focused, meaning it is based on the coaches’ occupational profile and required competencies and produces relevant learning outcomes for those coaches. This is a move away from the traditional teacher-centred, input-focused model.

UEFA provides syllabuses of minimum content to help national associations create consistent, effective UEFA diploma courses that result in coherent, comparable qualifications. The aim is not to dictate how associations design their courses but to provide a selection of evidence-based options derived from best practices. Our hope is that associations will draw on these best practices to design courses and qualifications that meet the needs of their coaches. Professional judgement that takes into account the association’s unique experience, expertise and context is not only encouraged but central to this process.

The vast majority of coaching competences are applicable to both **male and female players**, but some do require knowledge or adaptations that are specific to men or women, boys or girls. They are identified in the SMC with the symbols ♀♂. The specificities should be taught as part of the core content to equip all coaches with the skills to confidently coach men and women, boys and girls. Guidance on delivery methods and ready-to-use content can be found in the **Framework for Coaching Female Players**.

The **UEFA Futsal A diploma** (advanced) allows coaches to further develop their expertise and elevate their coaching competences at elite level in futsal.

Coach profile

Coaches awarded a UEFA Futsal A diploma must have a clear understanding of coaching in elite futsal, youth and senior, and how to develop and maintain optimal player and team performance. They must be able to provide a positive developmental experience that enhances elite futsal players’ performance, knowledge and skill.

To achieve this, they must perform the **functions** listed in the **four areas** below.

Futsal coach

- Work positively with coaching and support staff
- Help develop and apply the team’s technical policy
- Help players find the right balance for them between their futsal, professional and private lives
- Work with players of different cultures, backgrounds, ages and experience
- Deal with all factors affecting team performance including sports ethics, media, parents/caregivers, player agents, supporters and scouts

- Report to the technical director, president and/or board

Player and team

- Develop an ethical and professional relationship with every player
- Plan and support individual player development collaboratively, taking into account individual objectives and team philosophy
- Involve players in the learning process and enable them to take responsibility for themselves
- Work on team development in cooperation with technical, medical and performance staff
- Manage all aspects of player and team performance
- Create a positive and ethical environment, a competitive mentality and a performance culture

Training environment

- Design and deliver a seasonal tactical, technical and physical plan for the team in conjunction with other coaching and support staff and in accordance with the competition schedule and the team objectives
- Prepare and deliver appropriate individual and team training sessions at elite level, in youth or senior futsal
- Work with individual players and the team and understand how training session design can affect individual and team performance
- Design match-oriented training sessions that consider the role of opponents, pressure and intensity
- Plan, deliver and review training sessions in accordance with the team's coaching philosophy and performance model, based on weekly and monthly programmes and analysis of the individuals' and team's match performance
- Embrace and adopt a holistic and interdisciplinary approach to player preparation and development, wherever possible in cooperation with other members of a multidisciplinary team, e.g. performance analysts, fitness/sports scientists, sport psychologists, medical and other performance staff
-

Matches

- Prepare match plans in collaboration with coaching and support staff that factor in the team's own playing philosophy and that of their opponents
- Coach the team effectively and positively during matches so that the players and team can reach their full potential
- Use matches to develop each player and the team, and to create a competitive team mentality
- Analyse matches with the coaching staff as an evaluation and learning tool for the coach, individual players and the team as a whole

Learning outcomes

Futsal coach	
Competence	Module
<ul style="list-style-type: none"> • Understanding the role of a coach in elite level youth or senior futsal • Demonstrating positive and ethical behaviour on and off the pitch • Creating a positive environment for performance with a clear understanding of the needs of individual players in futsal and in their professional and private lives • Being flexible and willing to commit to the demands at this level of futsal • Demonstrating effective and appropriate leadership and management of an elite futsal team, youth or senior • Embracing appropriate ethical values in keeping with the spirit of the game and the principles of human rights (e.g. fair play and no cheating, doping or bullying) • Applying the team vision while respecting the players' social, professional, educational and private lives 	<p>Philosophy, values and beliefs</p>
<ul style="list-style-type: none"> • Effectively and purposefully applying a variety of teaching, learning and leadership styles (coaching models) • Coaching the team and players in a manner appropriate to their age, experience and stage of development • Maintaining appropriate records of training to inform the development of future sessions and training programmes • Identifying and correcting instances of suboptimal performance using a range of coaching analysis and intervention methods • Promoting a performance development approach, including the importance of healthy competition and playing to win • Allowing players to explore and experiment in search of effective solutions 	<p>Teaching methodology: art of coaching</p>
<ul style="list-style-type: none"> • Leading and collaborating positively and effectively with coaching and other support staff in the player and team development process • Understanding the benefits of a diverse coaching and support staff • Cooperating with staff involved in scouting, selecting and recruiting new players • Collaborating with other staff as required, and representing the team and the sport in a positive way • Applying the team's game philosophy and values and playing an active role in social interactions with local stakeholders • Working proactively with others who can influence player and team performance including the board, players' families, media and supporters 	<p>Collaboration</p>
<p>The futsal coach section of the course requires at least 25 hours of reality-based education.</p>	

Player and team	
Competence	Module
<ul style="list-style-type: none"> • Understanding the general and position-specific characteristics and needs of elite players, youth and senior • Setting and reviewing goals for individual players according to the technical, tactical, physical and psychological demands of elite futsal, at youth and senior levels • Involving the players in the process of setting and reviewing goals • Understanding the characteristics and needs of young players to help them integrate the senior team • Using various evaluation and reflection methods and feedback techniques to effectively guide players through their individual development process • Applying player profiling to effectively analyse individual performance 	<p>Knowing the players</p>
<ul style="list-style-type: none"> • Building a successful team and developing the right team dynamics at elite level by involving youth and senior players in the following aspects: <ul style="list-style-type: none"> ○ Defining team goals ○ Clarifying the various professional and social roles within the group ○ Setting standards on the pitch and in the dressing room ○ Creating a fun, respectful and enjoyable environment that motivates and inspires ○ Managing setbacks and conflicts proactively and positively 	<p>Team building</p>
<ul style="list-style-type: none"> • Demonstrating and evaluating practical examples of an integrated vs isolated approach to fitness training • Planning, delivering and reviewing integrated fitness training sessions in cooperation with support staff, encompassing the physical goal of the session, expected physical load, appropriate content, exercises and methodological steps • Understanding and analysing how technology can be used to monitor and manage individual players' physical loads during training and matches • Using fitness tests to determine training workloads and recovery needs based on the physical condition of each individual player • Supervising and managing the team's overall daily and weekly workload in each competitive macrocycle (balance between workload, capacity and recovery) • Monitoring the individual internal and external physical load during training and matches, wherever possible on the basis of metrics collected using player-tracking technologies • Understanding the principles of injury prevention, rehabilitation, return to exercise, return to training, return to play and performance 	<p>Fitness development</p>
<ul style="list-style-type: none"> • Supporting players to help them deal with the psychological demands of the game and the profession • Preparing and helping players to deal with the following performance factors: <ul style="list-style-type: none"> ○ Dealing with pressure and stress ○ Juggling their futsal, professional and private lives 	<p>Psychological development</p>

Syllabus of minimum content 2025: UEFA Futsal A diploma

<ul style="list-style-type: none"> ○ Mental training ● Developing the players' performance mindset including learning, commitment, effort, grit, resilience and self-regulation 	
<ul style="list-style-type: none"> ● Building a solid team dynamic and work ethic and a competitive mentality through fun and positive yet demanding and accountable behaviour, action and communication ● Understanding the importance of players' achieving the right balance between their futsal, professional and private lives ● Communicating proactively and effectively within the team environment in challenging situations involving players, coaches and support staff ● Understanding traditional and social media and how either can affect team cohesion and performance if misused 	Social development
The player and team section of the course requires at least 25 hours of reality-based education .	

Training environment	
Competence	Module
<ul style="list-style-type: none"> • Understanding the technical, tactical, physical and psychological requirements of developing and improving performance in elite futsal (youth and senior teams) • Creating sessions and activities that are interlinked and clearly relate to the team's game model, performance model and objectives for the season • Effectively managing the space, areas, direction, intention and consequence in relation to player numbers and how to use overloads (3 vs 2 or 4 vs 3) to enhance players' decision-making • Designing an appropriately balanced menu of training activities using a variety of teaching methods to maximise technical and tactical learning • Regularly integrating game-based decision-making and problem-solving into training sessions 	<p>Training session design and content</p>
<ul style="list-style-type: none"> • Understanding individual and team periodisation • Designing and delivering weekly, monthly and seasonal training plans (technical, tactical, physical and psychological) that focus on the development, recovery and performance of individual players and the team • Planning, delivering and reviewing match-oriented tactical training sessions (opponent, pressure, intensity) in cooperation with support staff • Planning, delivering and monitoring individualised technical, tactical and physical training sessions that are adapted to the players' level and stage of development • Analysing and reflecting on performance to provide the players, the team and coaches with effective feedback • Using appropriate modern technology to complete regular tasks 	<p>Planning, delivering and reviewing</p>
<ul style="list-style-type: none"> • Creating a challenging, positive and ethical learning environment for elite players, youth and senior, both on and off the pitch • Using different leadership and teaching approaches according to players' levels, needs and specific situations (e.g. after a loss or during long preparations) • Constantly reviewing and reflecting in order to enhance individual and team learning and performance • Creating an effective learning environment by means of proper planning and preparation, ensuring players are intrinsically motivated and engaged 	<p>Motivational learning environment</p>
<ul style="list-style-type: none"> • Safeguarding the health and welfare of players • Creating a safe and ethical working environment • Being aware of the needs and backgrounds of each individual player • Promoting the health and performance benefits of good lifestyle habits relating to nutrition, hydration and sleep • Knowing the team's or organisation's code of conduct and acting accordingly 	<p>Health and welfare</p>

Syllabus of minimum content 2025: UEFA Futsal A diploma

<ul style="list-style-type: none">• Learning and maintaining the skills to apply first aid and cardiopulmonary resuscitation (CPR) effectively• Understanding anti-doping responsibilities	
<p>The training environment section of the course requires at least 35 hours of reality-based education.</p>	

Syllabus of minimum content 2025: UEFA Futsal A diploma

Matches	
Competence	Module
<ul style="list-style-type: none"> Reading and analysing the game (pre-match, during the match and post-match) based on player roles, team tactics and analysis of the opponents Knowing and using modern match and player analysis tools pre-match, in-match and post-match Communicating relevant and appropriate findings from match and player analysis effectively and efficiently Analysing player performance in relation to individual tasks and development plans Helping the players evaluate their own game and adapt their behaviour during matches 	Match and performance analysis
<ul style="list-style-type: none"> Effectively applying a variety of formations and styles of play in top-level futsal Understanding the various playing positions and tasks in different playing systems Knowing and applying modern technical, tactical and fitness trends Innovating or customising playing styles to optimise performance based on the characteristics of individual players 	Playing styles
<ul style="list-style-type: none"> Preparing individual players and the team for the best possible match performance in cooperation with support staff, including team selection, game plans and team talks Coaching effectively and positively during matches so that players perform their roles to their full potential Supporting players' autonomy with regard to decision-making and problem-solving Analysing matches in real time in cooperation with coaching staff to affect team performance (in-game management) Communicating effectively and respectfully with the match officials Fully understanding the rules and the Laws of the Game 	Match coaching
<p>The matches section of the course requires at least 35 hours of reality-based education.</p>	

Reality-based education	Minimum hours
Guided interactive content delivered and monitored by coach educators	140 hours
Practical work experience ¹	40 hours
Total minimum hours of reality-based education	180 hours
Minimum hours of theory and practice in the classroom (in person or online)	90 hours

¹ The course must include micro-group work overseen by the course educator in the participants' work environments.

Syllabus of minimum content 2025: UEFA Futsal A diploma

Minimum hours of practice outside the classroom, including work experience	90 hours
Study visits ²	

² Study visits to practical football environments can be included as a top up to the learning to enhance the participants' competence. The number of study-visit hours are in addition to the minimum hours of education.

Assessments

Please refer to Article 13 of the UEFA Coaching Convention for further details of the minimum requirements for assessments and what they must include.

Coaching role and context

Coaches awarded a UEFA Futsal A diploma must have a clear understanding of coaching at elite level in youth or senior futsal and how to develop and maintain optimal player and team performance.

They must be able to provide a positive developmental experience that enhances elite futsal players' performance, knowledge and skill.

To obtain a UEFA Futsal A diploma, coaches must demonstrate that they have the theoretical basis and practical ability to perform the functions listed in the four areas outlined below.

Theoretical: Understand and explain the theory that underpins the successful performance of the required functions.

Practical: Demonstrate an ability to perform the functions expected of them.

Coach

- Understand the environment of elite futsal, youth or senior, and the importance of having the right balance between futsal, professional and private lives
- Demonstrate own futsal philosophy at elite level, in youth or senior futsal (level-specific characteristics)
- Use appropriate leadership styles, behaviour and coaching methodologies for elite youth or senior teams
- Collaborate effectively with coaching and support staff

Player and team

- Know the characteristics and needs of elite players and teams, at youth and senior level
- Build a successful team and develop the right team dynamics for elite level youth or senior futsal
- Develop the technical, tactical, physical and psychological abilities of elite players, youth and senior
- Understand the benefits and limitations of an integrated vs isolated approach to fitness training
- Use appropriate technologies to test player fitness levels and monitor physical performance in training and matches

Training environment

- Plan, deliver and review training sessions and activities on the basis of weekly and monthly training programmes, taking account of individual and team development and performance and basic training, teaching and learning principles
- Plan, deliver and review match-oriented tactical training sessions (opponent, pressure, intensity) in cooperation with support staff
- Integrate decision-making and problem-solving into training sessions
- Analyse performance to provide the players, the team and coaches with effective feedback

Matches

Syllabus of minimum content 2025: UEFA Futsal A diploma

- Prepare the players and team for matches with a clear understanding of player roles and the requirements of the different playing positions in a variety of playing systems
- Coach the team effectively and positively during matches so that the players and team perform their roles to their full potential
- Analyse player performance using modern technologies in relation to individual tasks and development plans
- Help the players evaluate their own game and adapt their behaviour during matches

Personal coaching logbook (including reflections relating to men's and women's futsal)

- Prepare a detailed periodised training plan for selected periods, e.g. pre-season, start of season, mid-season, as part of the overall seasonal plan
- Develop and explain own game model and performance model
- Analyse and review training sessions and matches (including opponents) at elite level
- Engage in ongoing self-evaluation and reflection and adapt future planning and coaching activities accordingly
- Work consistently with individual players and the team on all aspects of their development in cooperation with other coaching staff
- Collect and analyse anonymous 360-degree feedback from a variety of stakeholders
- Reflect on own coaching journey, including off-the-pitch challenges (e.g. dealing with management, signings, releases, media and the impact of coaching on personal life, family, etc.)
